

The Word of God: Our Amazing but Only Hope

Dr. Jerry Bilkes

The Word of God is a sufficient Word to define us - it never leaves us neutral over against Christ. It defines our nature apart from Christ. As such, it comes with a solemn reminder that we are to heed this sufficient and sure Word so that we do not neglect the salvation that is spoken of in the Word. It also defines the new nature/identity for those who are in Christ and encourages them to keep listening to this sure and sufficient Word.
